Albert Kevin Camargo Barreda

FullStack Engineer Peru(Remote) +51 980 747 561 · hurkth@gmail.com · linkedin.com/in/kevocam · kevincamargo.com

Career Summary

Full Stack Engineer with 7+ years of experience building web products for enterprise clients in health insurance, retail pharmacy and digital media. Specialized in React, Next.js and microfrontend architectures, with backend experience in Python/FastAPI and Node.js. Introduced automated testing that cut bugs by ~95% and a mobile-first approach adopted as the team standard. Uses AI-assisted development (Claude, Codex) daily and is currently deepening in LLM integration with Python.

Skills

Frontend: React, Next.js, TypeScript, JavaScript, Vue.js, Microfrontends, Sass, CSS
Backend: Python, FastAPI, Node.js, Express, PHP/Laravel, REST APIs, GraphQL (Apollo)
Data & Cloud: PostgreSQL/Supabase, MySQL, MongoDB, Azure, Vercel, Docker
Quality & Practices: Jest, Playwright, SSR/SEO, Mobile-first, Agile/Scrum, AI-assisted development
Languages: Spanish (native), English (B2)

Career History

Globant — Full Stack Engineer (Semi-Senior Advanced) Dec 2021 – Present
Promoted from Semi-Senior Frontend Engineer

Globant - Consalud (Isapre), Santiago de Chile Feb 2023 – Present

- Only Globant engineer in a ~15-person multinational team building the member self-service platform (MiGES, MiCAEC, MisPreventivos, MiCirugía) for 450K+ members.
- Introduced unit (Jest) and E2E (Playwright) testing into repositories that had none, cutting bugs by ~95%.
- Built shared components reused across microfrontends and led the mobile-first approach, now the team standard.
- Integrated AI-assisted development (Claude, Codex) to speed up delivery while keeping code quality high.

Tools/Technologies: React, TypeScript, Module Federation, Jest, Playwright, Sass, Scrumban Codex, Claude.

Globant - Salcobrand, Santiago de Chile 7 months

- Built a file management MVP (Google Drive-like) with a React frontend and Python/FastAPI backend services.
- Proposed and implemented solutions that automated processes previously done manually.

Tools/Technologies: React, Python, FastAPI, Scrum, Jira

Globant - theSkimm, New York, USA 5 months

- Improved SEO visibility by ~70% in 3 months through server-side rendering optimizations in Next.js.
- Fixed rendering bugs affecting page performance and indexing.

Tools/Technologies: Next.js, React, GraphQL, Apollo, MongoDB, Contentful, Google Analytics

ID4 @IoT (Fintech) — Frontend Developer Jun 2021 – Aug 2021

- Improved app performance by ~25% and cut development time by ~30% with reusable components.

Dau Holding Group — Full Stack Developer Jan 2021 – May 2021

- Built a virtual congress platform (15+ countries, 300+ attendees) with real-time chat and an admin dashboard.

Waliky TI — Co-founder & Full Stack Developer Feb 2019 – Dec 2020

- Built an edTech platform used daily by 50+ students and responsive client websites with ~70% faster load times.

Projects

Candelaria Central (candelariacentral.com): platform for Peru's Festividad de la Candelaria (UNESCO Intangible Heritage) with presentation order, scores and rankings for 150+ dance groups, plus an SEO content strategy. Built with Next.js, Supabase and Vercel.

Education

Universidad Nacional del Altiplano, Puno, Perú Sep 2007 – Dec 2014
BS, Systems Engineering
