Albert Kevin Camargo Barreda

FullStack Engineer · Peru(Remote) +51 980747561 · hurkth@gmail.com · linkedin.com/in/kevocam · kevincamargo.com

Career Summary

Full Stack Engineer with 7+ years of experience building web products for enterprise clients in health insurance, retail pharmacy and digital media. Works across the stack with React, Next.js and TypeScript on the frontend and Node.js and Python/FastAPI on the backend, including microfrontend architectures. Introduced automated testing (Jest, Playwright) that cut bugs by ~95% and drove a mobile-first approach adopted as the team standard. Uses AI-assisted, spec-driven development (Claude Code, Codex) daily and has built an LLM-powered assistant on the Anthropic API, live on kevincamargo.com.

Career History

Globant — Full Stack Engineer (Semi-Senior Advanced) Dec 2021 – Present
Promoted from Semi-Senior Frontend Engineer · Clients: Consalud (Chile), Salcobrand (Chile), theSkimm (USA)

- Built self-service features for a health insurance platform serving 450K+ members as part of a ~15-person multinational team.
- Introduced unit (Jest) and E2E (Playwright) testing into repositories that had none, cutting bugs by ~95%.
- Built shared components reused across microfrontends and led the mobile-first approach, now the team standard.
- Built a file management MVP (Google Drive-like) for Salcobrand with a React frontend and Python/FastAPI backend services, automating processes previously done manually.
- Improved theSkimm's SEO visibility by ~70% in 3 months through server-side rendering optimizations in Next.js, fixing rendering bugs affecting performance and indexing.
- Integrated AI-assisted development (Claude, Codex) to speed up delivery while keeping code quality high.

Tech stack: TypeScript, JavaScript, React, Next.js, Microfrontends, Python, FastAPI, Node.js, GraphQL (Apollo), MongoDB, Azure, Jest, Playwright, Sass, Contentful, Claude, Codex, Scrum, Jira

Dau Holding Group · ID4 @IoT (Fintech) — Full Stack Developer Jan 2021 – Aug 2021

- Built a virtual congress platform (15+ countries, 300+ attendees) with real-time chat and an admin dashboard.
- Improved app performance by ~25% and cut development time by ~30% with reusable components.

Tech stack: JavaScript, TypeScript, React, Vue.js, Node.js, Express, REST APIs, MySQL, Python, FastAPI

Waliky TI — Full Stack Developer Feb 2019 – Dec 2020

- Built an edTech platform used daily by 50+ students and responsive client websites with ~70% faster load times.

Tech stack: JavaScript, PHP, Laravel, Vue.js, MySQL, Sass, CSS

Projects

Candelaria Central (candelariacentral.com): platform for Peru's Festividad de la Candelaria (UNESCO Intangible Heritage) with presentation order, scores and rankings for 150+ dance groups, plus an SEO content strategy. Built with Next.js, Supabase and Vercel.

Education

Universidad Nacional del Altiplano, Puno, Perú Sep 2007 – Dec 2014
Systems Engineer — Bachelor's Degree and Professional Title (Graduated)

Languages

Spanish: Native · **English:** Upper-Intermediate (B2)
